| <p>Open your Internet browser, and type in;</p> <p>http://www.mylifehouse.org.au/for-doctors/refer-a-patient/</p> | <p>Choose the referral template that best matches your requirement.</p>  |
| <p>Once the desired template has been found for your practice management application;</p> | <p>Right mouse click on the icon to download the template.</p> <p>Right click the name and select Save target as... (in the Internet Explorer)</p>  |

The box asking you to Save As will ask you where you wish to save the template.

Select the place you wish to save it, in this example the Desktop. Click Save.

Save to the desktop.
NB **Do not double click the template to open. This could damage the template fields.**

In Best Practice, open the word processor by clicking on the word processor icon.

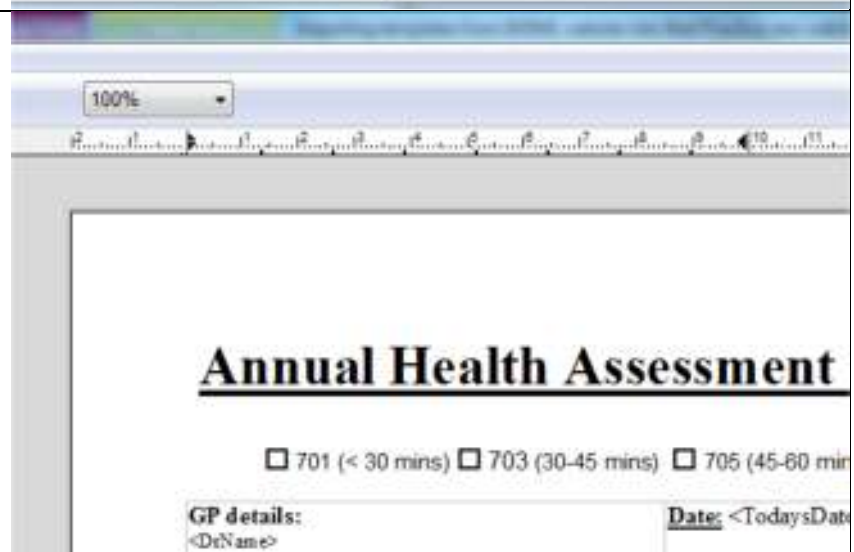

Once in the word processor is open select **Templates – Import template.**

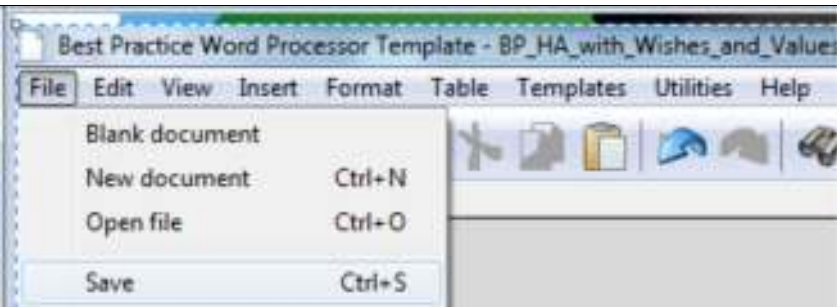

Navigate to where you saved the template, in our case the desktop. Select the appropriate template and click **Open**.

The template is imported into the Best Practice word processor.

To save the template select **File – Save. (for future use)**

Enter the template name, in this case **75+ Health Check (Any name is fine)** and click **Save**.
Tick the box **Available to all users** if more than one user will be using the template.

If you open the word processor in the patient's file by clicking on **File – New Document** you will see the template if you scroll down in alphabetical order. Click **Open** to open.
